Why Choose an Electric Tankless Water Heater?

Why?

Eliminates
hot water line

99%

Energy- Efficient

Point of use
installation

Eliminates
standby losses

Lowers Material and Labor Costs

Eliminates the need for:

- Hot water line, simplifying piping
- Drain pan
- Temperature/pressure valve

99% Energy-Efficient Solution

- Point of use installation provides hot water when and where it's needed
- Only draws power when activated
- Eliminates standby losses – no waiting for water to be piped in from a centralized water tank

Chronomite: The #1 Choice

Set It and Forget It

Zero Maintenance Choice

- Self-cleaning waterway requires no maintenance

ERB Series
with Built in Disconnect Switch

Innovative Products

Prefabricated housing contains everything you need

- Point-of-use water heater
- Integral mixing valve
- Disconnect switch
- Building management system connections with leak detection

Outstanding Customer Service

- Stocked product available for quick shipment
- Industry-best lead times

CM Series and R Series

CM Series
Instant-Flow® C-Micro

CM Series

- 0.2 GPM activation
- Temperature adjustment
- Uses: Lavatories, hand sinks

R Series

- 0.35 GPM activation
- Temperature adjustment
- ANZI 35.1 Compliant
- Uses: Eye/Face wash, kitchen sink

R Series
MIGHTY-MITE®

Z Series InviZible

Z series with CMI +
Disconnect Switch

CMI Series
CompliantMix®

Pre-fabricated product

Pre-wired disconnect switch

Z Series InviZible

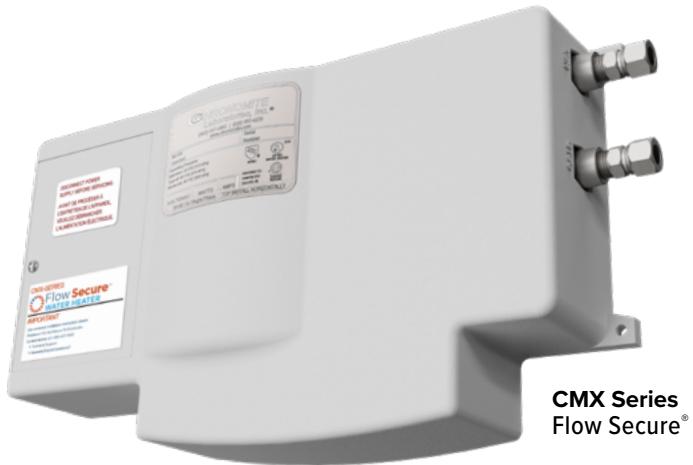

- Enclosed box recesses into the wall to hide heater
 - Semi-recessed option available
- Pre-fabricated product shipped per image shown
 - Pre-wired disconnect switch option available
- Primer coat standard
 - Stainless Steel and locking box options available
- Compatible with CM, CMI, CMX, and R series heaters.

CMX Series Flow Secure®

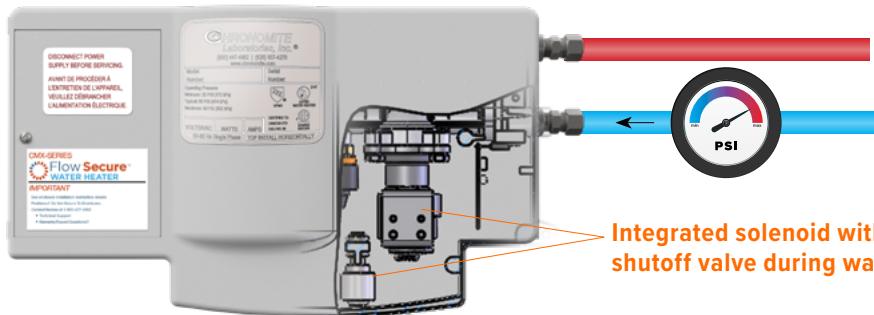

CMX Series Flow Secure

- Leak detection available
 - Integrated solenoid valve shuts off water if leak is ever detected
- Building management system connection through BACnet
 - Records data: kW usage, output temperature, on/off status, leak detection, and pressure spikes <100 PSI

CMX Series
Flow Secure®

Integrated solenoid with automatic shutoff valve during water detection

Flow Secure®
WATER HEATER

ERB Series BOXER®

ERB Series Boxer

- Uses: Emergency drench equipment
- Provides tepid water at 2.6-30 GPM
- Eliminates need for emergency tempering valve
- Fused disconnect switch (shown available without requirement of NEMA enclosure)
- Large energy cost savings – ROI in 2-3 years
- Select R and ER series for emergency eye/face wash applications

ERB Series
with Built in
Disconnect Switch
