18" Lav/Toilet - Ligature Resistant Comby with Lavatory D-Shaped Bowl

Fixture is arranged to be installed on finished wall and serviced from an accessible pipe chase. Fixture is fabricated from 14 gage type 304 stainless steel cabinet and toilet bowl, polished to a satin finish. The inside of the toilet bowl also has a satin finish. Cabinet interior is sound-deadened with fire-resistant material. Optional Wall Sleeve or Metal Template is recommended for all installations to provide required wall openings. Engineered to reduce possible risk of the fixture being used as a ligature device.

Lavatory "D" Bowl is 15" x 13" x 5-1/2" deep. Standard elbow waste outlet is 1-1/2" O.D. plain end.

Optional Valve is an optionally available Air-Control pneumatically operated, hemispherical pushbutton valve using atmospheric air. Pushbutton requires less than 5 pounds to activate valve. Valve is direct acting, non-metering type and is optionally available as metering with non-hold open feature. Metering valve timing is adjustable from 5 to 60 seconds. Valve can be remotely located up to 10 feet from the operating pushbutton. Bubbler and valve pushbuttons are spherical type. Valve and bubbler conform with lead-free requirements for NSF61, section 9 and CHSC 116875.

Toilet is blowout jet type with ligature resistant elongated bowl manufactured to ASME A112.19.3 and CSA B45.4 requirements and will flush with a minimum of 25 PSI flow pressure when used in conjunction with a minimum of 1.28 GPF. Trap has minimum 3-1/2" seal and will pass a 2-1/8" ball. Toilet waste outlet is 2-3/8" diameter plain end extending 3" beyond the fixture for wall outlet and Gasketed Waste for floor outlet.

**Regularly Furnished** items include wall mounting hardware.
