

Whitehall Ligature Resistant * Waterless Urinal

Model WH2159-EB

WH2159-EB-EG10

Ligature Resistant Waterless Urinal

***Urinal design** includes a Dome Strainer and Washdown Fitting located inside the Urinal, which may present a potential ligature risk. These components feature necessary openings to ensure proper Urinal function.

High Efficiency Urinal is engineered to combine attractive looks, versatility and intended for mounting onto a finished wall from the front side.

Fixture is engineered to combine attractive looks, versatility and intended for mounting onto a finished wall from the front side. Urinals mounted at 17" rim height comply with ANSI, ADA, UFAS accessibility requirements. Compliance is subject to the interpretation and requirements of the local code authority.

Housing is fabricated of 18 gage, with bowl of 16 gage, type 304 stainless steel. All exterior surfaces are powder coated white.

Urinal is a waterless type with removable strainer, which acts as a retainer for the drain duckbill diaphragm, and 1-1/2" waste elbow. Complies with ASME A112.19.3-2008/CSA B45.4-08.

Installation is front mount and the fixture includes an enclosed bottom with an access panel that can be removed to facilitate mounting directly to a reinforced wall from within the housing.

***Urinal design** includes a Dome Strainer and Washdown Fitting located inside the Urinal, which may present a potential ligature risk. These components feature necessary openings to ensure proper Urinal function.

GUIDE SPECIFICATION

Provide Ligature Resistant Stainless Steel Waterless Urinal (specify model number and options). Urinal mounted at 17" rim height to comply with ANSI, ADA and UFAS accessibility requirements. Interior to have a contoured surface to facilitate cleaning. A removable strainer acts as a retainer for the drain duck bill diaphragm provided. Fixture shall be fabricated of 18 gage with 16 gage bowl type 304 stainless steel. All exposed surfaces are powder coated white.
