US PATENTS - US 10,474,170 B2 & US D697,591

Ligature Resistant Shower

Shower components are arranged to be installed onto finished wall and serviced from the front.

Shower head is chrome plated brass with a 14 gage type 304 stainless steel white mounting flange powder coated and provides a vandal and ligature resistant shower head with a conical shape. Spray pattern is a non-adjustable multi-stream style and provides a 1.5 GPM flow rate.

The T/P Mixing Valve automatically mixes hot and cold water to deliver blended water within a specific range. Mixing Valve meets the most stringent performance criteria for temperature and pressure changes, defined by ASSE 1016. Valve conforms with lead free requirements of NSF61, Section 9, 1997.

Stainless Steel Recessed Soap Dish for install into wall is optionally available. Refer to WH1832-PF Series Submittal for additional Technical Data.

GUIDE SPECIFICATION

Provide and install a Best-Care™ Ligature Resistant Component Shower. Exposed trim shall be chrome plated. Fixture shall be furnished with an ASSE 1016 control valve with a Patented ADA Compliant Ligature Resistant Tri-Lever Handle and conical shower head.

Please visit www.whitehallmfg.com for most current specifications.

Complies with the following standards:

ASSE 1016
 CSA B125.16
