

LIGATURE-RESISTANT DRAINS, COVERS AND DRAIN ASSEMBLIES

A smarter way to protect patients on the floor and in the shower.

Ligature points are often at floor level, not just overhead.
Ligature-resistant drains are critical for protecting patients.

DESIGNED WITH AN
INTERNAL GUSSET SYSTEM
TO MINIMIZE
LIGATURE POINTS

COMPATIBLE WITH MULTIPLE
FLOORING APPLICATIONS

Our area drains, shower drains, and linear drains are engineered for versatile installation and seamless integration with a variety of finished flooring materials, including:

Tile flooring

Resilient flooring (vinyl)

Epoxy flooring systems

Designed to perform reliably and blend cleanly with your finished floor—no matter the surface.

LIGATURE-RESISTANT DRAINS, COVERS AND DRAIN ASSEMBLIES

BENEFITS:

- Minimizes ligature risk at critical locations.
- Deters tampering, vandalism, and clogs.
- Simplifies design, retrofit, and maintenance.
- Coordinates across your facility with one solution.
- Designed for tough cleaning and heavy use.

- Linear drain
- 12", 18", 24", 30", 36", and 48" available
- Stainless steel construction
- For use in vinyl flooring and vinyl resilient flooring

MODEL WHLVD SERIES

- Linear drain
- 12", 18", 24", 30", 36", 48" and 60" available
- Stainless steel construction
- Available in multiple lengths

MODEL WHLD SERIES

AREA DRAIN ASSEMBLIES

- Nickel bronze grate surface clamping
- For use with resilient flooring (vinyl)
- 6" strainer
- 2", and 3" NH outlet available

WHFDV-6RD

- Nickel bronze or stainless steel grate
- Available with round and square grates
- 2", 3" and 4" NH outlets available
- For use in poured finished floors
- Labor Saving

MODEL WHFD SERIES

- Nickel bronze and stainless steel grate options
- Available with round and square grates
- For use in poured finished floors
- 2", 3" and 4" NH outlets available
- Labor saving
- Trap primer port

MODEL WHFD-TP SERIES

- No-Caulk shower drain—Mechanically compressed rubber gasket
- 2" outlet available
- Stainless steel strainer grate
- Brass drain body
- Designed to be integrated with shower stall bases

MODEL WHPD-2NH

GRATE TOPS FOR EXISTING DRAIN BODIES

- Nickel bronze or stainless steel
- For use in poured finished floors
- For use with JR Smith floor drains

MODEL WHDG SERIES

- Stainless steel construction
- For use with common no-caulk drain body

MODEL WHPG

- Stainless Steel grate
- 5" or 6" round or square
- For use with existing Zurn floor drain

WHDG-5RD (ZURN)

- Stainless steel grate
- 5" round or square
- For use with existing Watts floor drain

WHDG-5RD (WATTS)
