 Flush Valve Cover
 w/Flush Valve shown
 for reference.
 (Required for Ligature
 Resistant Installation).

WH2158-T-EB-EG10

**Ligature Resistant High Efficiency
 Urinal**

High Efficiency Urinal is engineered to combine attractive looks, versatility and intended for mounting onto a finished wall from the front side.

Fixture housing is fabricated of 18 gage, with bowl of 16 gage, type 304 stainless steel. All exterior surfaced are powder coated white.

Urinal is a high efficiency type requiring a 0.125 GPF (0.47 Liters per flush) to 0.5 GPF (1.8 Liters per flush) flush valve and supplied with 3/4" NPT flushing inlet connection and stainless steel bee hive dome strainer with 1-1/2" O.D. P-Trap assembly.

Flush Valve and Top Supply Cover are optionally available may be specified separately. Refer to WH2802SLPT and WH2802-SLPT-ADA Series submittal.

***Urinal design** includes a Dome Strainer and Washdown Fitting located inside the Urinal, which may present a potential ligature risk. These components feature necessary openings to ensure proper Urinal function.

GUIDE SPECIFICATION

Provide Ligature Resistant Stainless Steel High Efficiency Urinal (specify model number and options). Interior to have a contoured surface to facilitate cleaning. Unit has an enclosed bottom with removable access panel. Fixture shall be fabricated of 18 gage, with 16 gage bowl, type 304 stainless steel. All exposed surfaces are powder coated white.
