

## OUTDOOR DRINKING FOUNTAIN INSTALLATION/MAINTENANCE INSTRUCTIONS

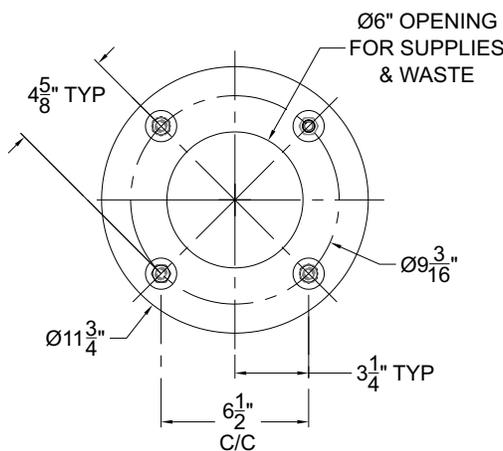

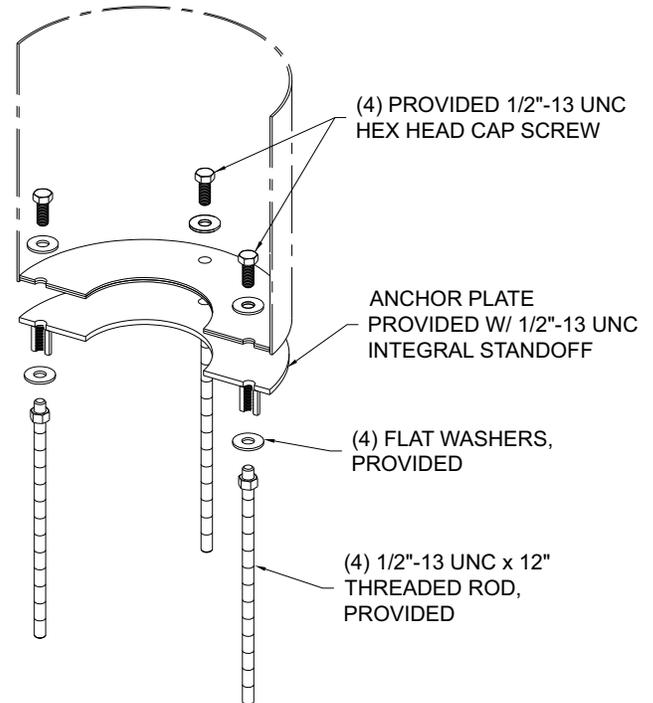

### OPTIONAL -IAP2, IN-GROUND ANCHOR PLATE, Ø12" PEDESTAL

#### Prior to installation:

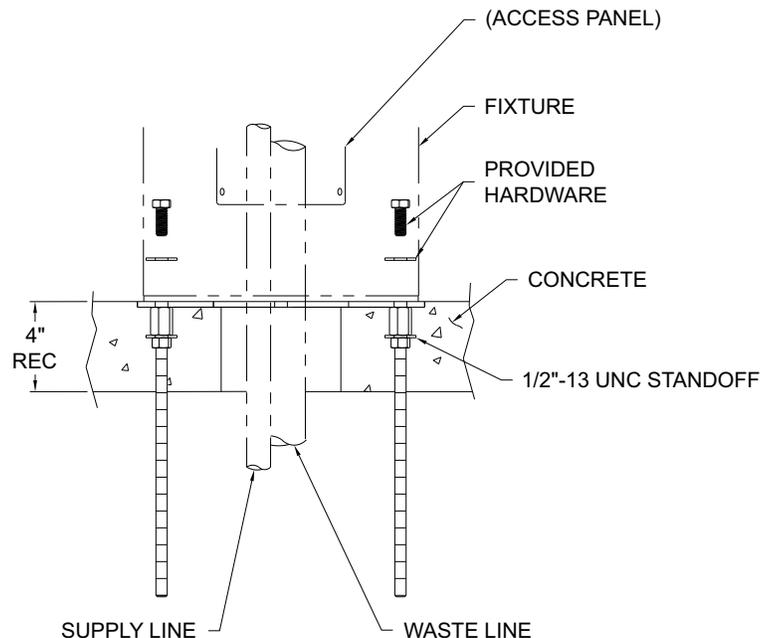

- ❖ Read all instructions and refer to local codes.
- ❖ Supply line must be flushed of all foreign materials such as pipe dope, chips, etc.

#### Installation Instructions:

- 1.) Refer to fixture roughs and installation instructions for Supply and Waste line stub-outs.
- 2.) Prepare the slab area surrounding fountain, spreading and compacting gravel as necessary.
- 3.) Prepare forms to protect stub-outs, thread Supply and Waste stub-outs through -IAP Ring and tap Anchor Plate in position, leveling as required to grade.
- 4.) Pour 4" minimum concrete pad to grade until concrete is level with top of Anchor Plate. Allow concrete to cure before installing fixture.
- 5.) After the pad has cured, remove fixture Access Panel (if applicable) and set fixture into position aligning -IAP Anchoring Nuts and secure through opening using the Anchoring hardware provided.
- 6.) Secure fixture to pad and replace Access Panel. Refer to fixture instructions to complete the installation.
