SUGGESTED SPECIFICATIONS

Model A0004000-SK10 series is a stainless steel Cane detection Skirt, intended for use on angled extended arms where the anchoring pedestal is 12" in diameter. The -SK10 is fabricated of 14 gauge type 304 stainless steel with exposed exterior surfaces polished to a #4 satin finish. The Skirt is optionally available powder coated and is intended to meet or exceed accessibility requirements for protruding objects as indicated in ADA Standards for Accessible Design, ANSI Standards. The unit includes all mounting hardware.
