Ligature Resistant Bookshelf with Clothes Hooks

The Acorn Bookshelf is recommended for installation in cells or day rooms. Bookshelf provides a convenient place to store books and other personal effects. All models are fabricated of 14 gage type 304 stainless steel with exposed surfaces polished to a satin finish. Auto release clothes hooks are tested to hold a minimum of 20 lbs. and fail at 40 lbs. or greater on those models that include clothes hooks. Models are engineered to reduce risk of the fixture being used as a ligature device.

Model 1823 Bookshelf with Hooks is rear mounted and features four auto release clothes hooks. Rear mount shelves are furnished with 1/4" steel studs, heavy washers and nuts for installing onto walls up to 8" thick.

Model 1824 Bookshelf with Hooks is front mounted and features four auto release clothes hooks. Front mounted shelves are furnished with 1/4"-20 UNC tamper-resistant screws for installer provided wall anchors.

Note: Screws provided have Machine Screw Thread and may not be suitable for all Wall types. When required, Installer shall provide alternate Screw type and Wall Anchors to suit Wall construction.

Model 1825 Bookshelf is rear mounted, similar to Model 1823 - without the clothes hooks.

Model 1826 Bookshelf is front mounted, similar to Model 1824 - without the clothes hooks.
