

## Care-Ware® Model Options Glossary

Please visit [www.whitehallmfg.com](http://www.whitehallmfg.com) for most current specifications.

<b>-1</b>	<p><b>Back Wall Only -</b>        This option provides a backsplash on the fixture countertop for installations on an open wall where adjacent walls are not a concern.</p>	<b>-1</b>	
<b>-2</b>	<p><b>Right Hand Corner -</b>        This option provides a right hand side splash as well as an integral backsplash on the fixture countertop when an adjacent right hand wall is abutted to the fixture. The side splash is integral with the Countertop.</p>	<b>-2</b>	
<b>-3</b>	<p><b>Left Hand Corner -</b>        This option provides a left hand side splash as well as an integral backsplash on the fixture countertop when an adjacent left hand wall is abutted to the fixture. The side splash is integral with the Countertop.</p>	<b>-3</b>	
<b>-4</b>	<p><b>Alcove -</b>        This option provides both left and right hand side splashes as well as an integral backsplash when adjacent walls abut the fixture on both sides. The side splashes are integral with the Countertop.</p>	<b>-4</b>	
<b>-AE</b>	<p><b>Aerator (On Gooseneck Spout) -</b>        This option provides a 2.2 gpm faucet aerator for our Gooseneck spouts. An Aerator reduces water flow by adding air to the water discharge separating the stream into many droplets. Benefits may include better faucet performance and reduced splashing.</p>	<b>-AE</b>	
<b>-BAT-SO</b>	<p><b>Battery Operated Sensor Spout -</b>        Use of this option eliminates the requirement to provide electrical power and wiring for units with -SO Sensor Operated Control. Sensor and solenoid valve are powered by a concealed 9 volt battery pack.</p>	<b>-BAT-SO</b>
