Note: Printed color swatches may differ slightly from actual Enviro-Glaze® coating. Contact your local representative for samples.

# Colorful Stainless Steel Fixtures Will Enhance Any Environment!

## Why use Enviro-Glaze®?

Murdock Manufacturing® has developed a color coating system which allows you to purchase durable stainless steel fixtures in designer colors. Enviro-Glaze is a superior finish which gives you a colorful and functional alternative to a stainless steel finish.

## What is Enviro-Glaze?

Enviro-Glaze is a smooth or textured hard coating that endures impact, will not bubble, and is chip-resistant. The coating is an electrostatically sprayed powder that is applied to the outside of the stainless steel fixture, then cured at a temperature in excess of 400°F. Vigorous inspection during every step of the production process ensures that the finish on every fixture meets Murdock Manufacturing's high quality standards.

## How should Enviro-Glaze be cleaned and maintained?

Murdock Manufacturing's Enviro-Glaze finish creates a beautiful surface that is easily cleaned, maintained and kept in a sanitary condition. A solution of warm water and mild soap is all that is necessary for cleaning the unit.\*

## Available Colors:

Silver Sage Patina  
Quicksilver  
Autumn Bronze  
Yukon Brass  
River-Rock Granite  
Raindrop  
Onyx

Textured Onyx  
Diamond White  
Snow White  
Pearl White  
Solar Flame  
Alpine Lake  
Firehouse Red

Matte White  
Textured Fairway Green  
Textured Firehouse Red  
Textured Alpine Lake

\* Long exposure to ultra-violet rays of the sun may cause chalking; however, should this occur, use of a mild furniture wax will remove residue and restore the original luster.
