

Option -9

Punching For Valve By Others -

This option is for customer specified size, shape, and location of punching for valve or spout by others.

On Washbasins, unless otherwise specified this option provides a basin with 4" centerset punching consisting of (3) 1-5/16" diameter holes, for spout and valve by others. Reference options -H1, -H24, -H28, -H34, or -H38.

For Meridian 3700 and 3700 series fixtures this option is only available when used with suffix options -RLD or -TZ bowls.

Please visit www.acorneng.com for most current specifications.
