EASY TO INSTALL

The Vari-Slab® basin does not require a lavatory support or carrier, which can make it easier to install in retrofit applications. The solid surface countertop and trap enclosure are attached to the wall with a secure mounting bracket. An optional lavatory support is available.

Level and install your brackets.

Mount your basin.

Install your faucets and trim.

MODEL NO: 9220 SERIES

DON'T COMPROMISE YOUR DESIGN

The new Vari-Slab® configurable basin is as versatile and customizable as it is easy to order, install, and maintain. A seamless, molded, one-piece solid surface deck with up to four integral basins, the Vari-Slab basin is available in a variety of shapes and colors for a fixture as simple or as modern as you want to make it.

MODEL NO: 9220 SERIES

- Wall-mounted, custom-length solid surface deck with up to four integral basins.
- Constructed entirely from Corterra® solid surface material.
- Integral overflow waste outlet.
- Meets ADA requirements. 

NO SEAMS MEANS EASY MAINTENANCE

Without frequent maintenance, sinks with grout or caulk quickly look grimy, and the seams can harbor unwanted bacteria and mold. The Vari-Slab® basin eliminates seams, reducing maintenance and preserving its appearance.

- Seamless solid surface is sanitary and easy to clean.
- Sleek, modern look is more attractive than alternatives.
- Maintains its look longer than caulked sinks.

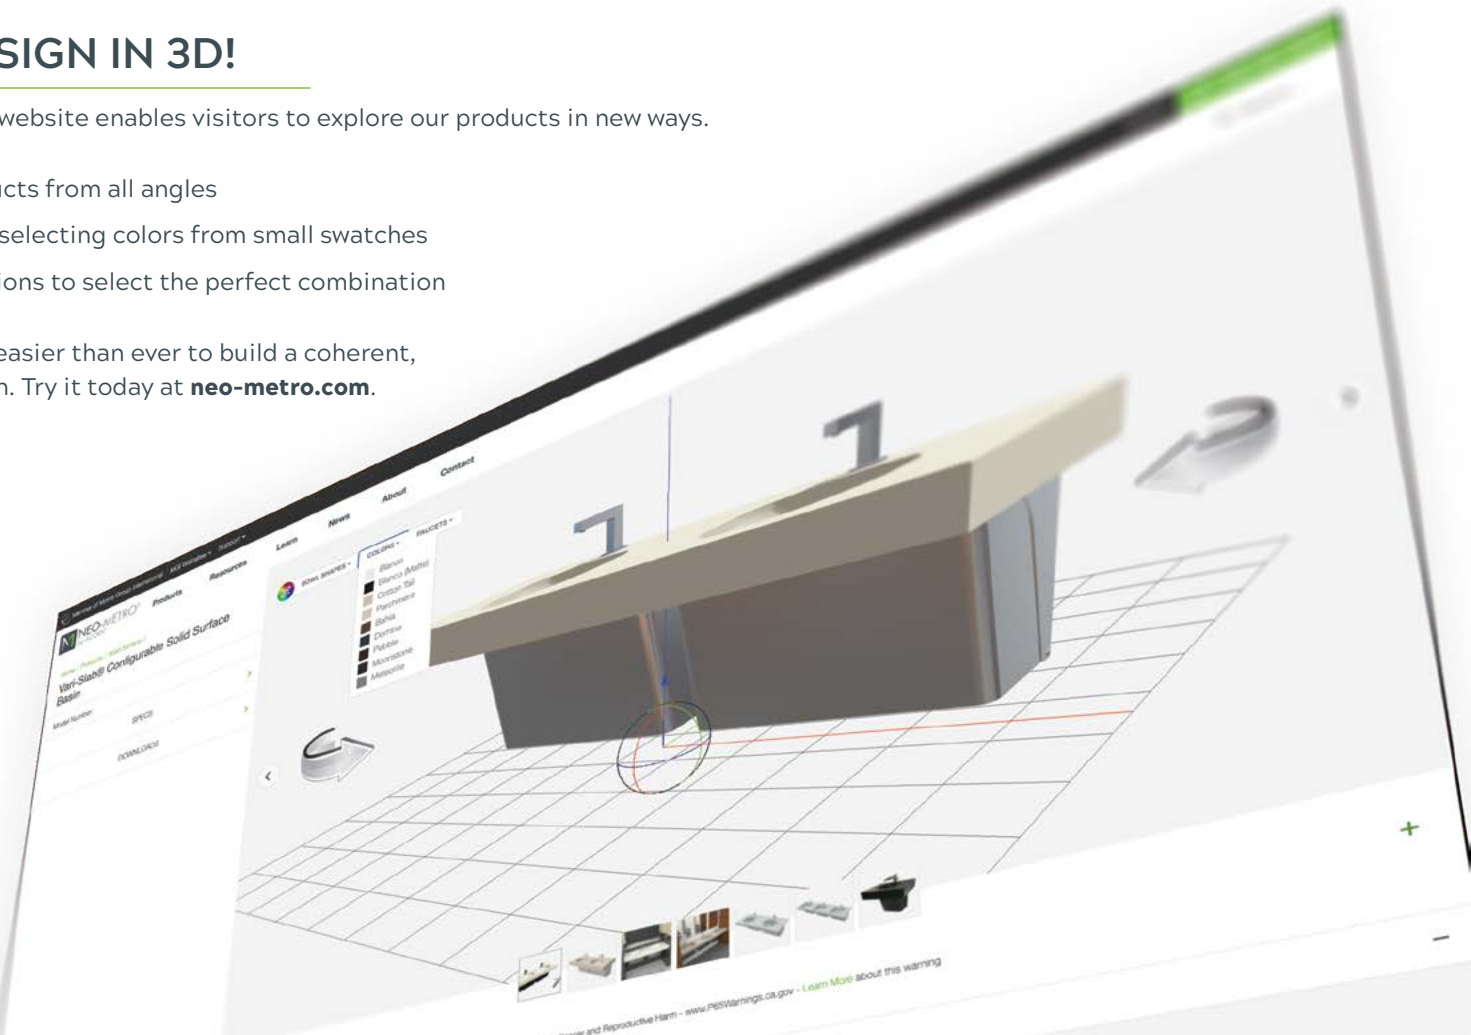

CREATE YOUR DESIGN IN 3D!

The new Neo-Metro® by Acorn® website enables visitors to explore our products in new ways.

- 3D renderings display products from all angles
- Try out each color—no more selecting colors from small swatches
- Swap faucets and other options to select the perfect combination

This new functionality makes it easier than ever to build a coherent, complementary restroom design. Try it today at **neo-metro.com**.
