HWS Wash Fountain (Circular)

Product Specifications...

Bowl and Sprayhead are type 304 stainless steel with satin finish. Bowl has an integral sprayhead. Sprayhead is 15" diameter x 5-1/4" high.

Housing is 16 gage stainless steel.

ADA Compliance. Units conform to ANSI, UFAS and ADA requirements for accessibility. Compliance is subject to the interpretation and requirements of the local code authority.

Soap/Toiletry Tray on top of sprayhead is standard.

Sectional Control is standard. One pushbutton or sensor actuates one station.

Electronic Sensor Operation includes individual solenoid valves activated by infrared sensors. A low voltage transformer is provided.

Spray Nozzles are vandal-resistant and provide a concentrated 0.5 GPM spray at each station.

Hot & Cold Supplies are blended in a pressure balancing mixing valve furnished with checkstops, strainers and flexible supply connections. A minimum of 30 PSI supply pressure is required.

Waste Connection is 2" No-Hub. No-Hub connector by others.

-DV Type Soap Dispenser (option) is available for liquid or lotion type soaps. Dispensers are below the sprayhead with a easily refillable concealed reservoir.

-HTR Electric Instantaneous Water Heater (option) is available. The heater is point of use and placed in the trap cover. (Additional specification are required)

Custom options available. Contact Neo-Metro for details.
